

HANDRAIL HWS.34

WOOD - INOX

Made of ash wood with satin stainless steel supports, it features a 34 mm diameter grip and comes complete with satin stainless steel end caps and bends. Perfect for elegant environments where the warmth and prestige of real wood are desired. It can also be installed on double-layer plasterboard walls.

The product is custom-cut according to the customer's specifications.

SMOOTH FINISH

Refined handrail with a smooth finish for perfect cleanliness and hygiene.

CONTINUOUS PROFILE

Various accessories are available to provide a strong and continuous support rail, ensuring maximum support and safety in corridors and stairways.

BOTTOM CLOSURE

Horizontal handrail bar complete with lower closing profile, ensuring a secure grip and optimal surface cleanliness.

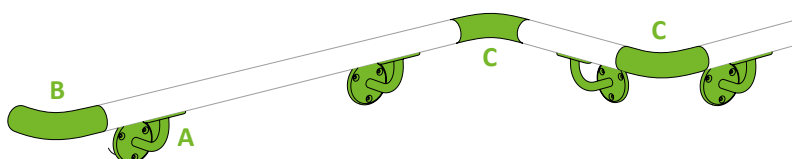

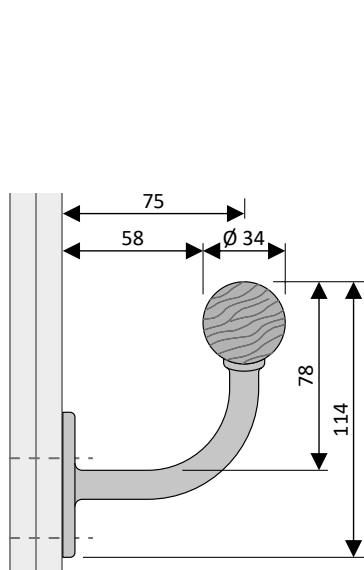

ASH WOOD

The Styla handrail is made of ash wood to ensure maximum resistance to wear and time.
